

Controlling your digital signs should be easy

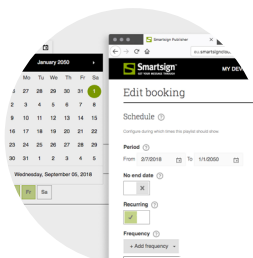

The Core – Smartsign Display Manager

The digital signage solution is known as Smartsign Display Manager. It gives you quick and easy control over digital signage as a marketing channel. With Smartsign Display Manager, you control your message and can deliver exactly what you want. The platform is extremely stable and flexible, and is suitable for all industries. It is also user-friendly, which means that everyone in the company can use Smartsign to inform and inspire.

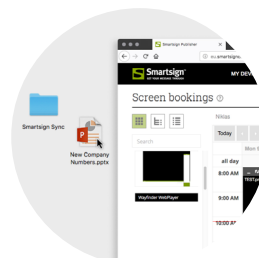

Web-based Interface

Support for most web browsers. No software needs to be installed by the user.

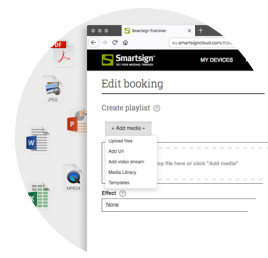

Calendar-based

Plan and schedule when the content is to be displayed on screens, e.g. Mondays 09:00-10:00.

Automated work- flows

Monitor files – when the scheduled file has been edited, the screens are updated automatically. You can also monitor RSS flows or Twitter etc.

Extensive filefor- mat support

Support for most common file formats, e.g. Power-Point, Excel, Word, PDF, video, Jpeg, HTML ..

Two versions of the same reliable product

Smartsign Display Manager exist in two different versions. Standard and Pro. If you chose **Standard** you can show content in full screen only. If you chose the **Pro** version you can show content in different layers and areas on the the screen.

Support and training

Smartsign offers first class service and technical support. Our aim is to be a good partner with our customers and we offer training/demos for free and we help our clients to choose the hardware and advice on your whole system approach. For more info contact support@smartsign.se or call 0416910622

Cloud service or on-prem installation

Both versions exist in a cloud version and an on-prem solution and that gives you full control over your server environment.
