

Shintaro 16-Port USB-C PD3.0 1000W GaN Charging Dock

The Shintaro 16-Port USB-C GaN Charger delivers an impressive 1000W of total power, enabling simultaneous charging of up to 10 MacBooks at 100W each or 16 devices at 60W. Powered by advanced GaN (Gallium Nitride) technology, it offers faster, more efficient charging in a compact design.

Ideal for homes, offices, or classrooms, this high-performance charging station supports a wide range of devices including smartphones, tablets, and laptops. With 16 USB-C PD 3.0 ports and a clean, organised layout, it eliminates workspace clutter. The InnovateCharger App gives you full control, allowing you to optimise and oversee all charging activity while benefiting from integrated safety protections.
